PRESENTS  
**THE ESSENTIAL**  
**ADVERSE/ESC DRIVING COURSE**  
**2009**

The **ESSENTIAL ADVERSE/ESC DRIVING COURSE** encompass the most informative driving you will ever experience. With 9km of unrestricted frozen lake and a selection of performance BMWs, the only restricting factor is **YOU** the driver!

*'An excellent course, well structured and run by the best instructors you could hope for'*

*(Adrian Mansell, Head of Driver Training at Gloucester Police {2007})*

*'A unique experience that is challenging and fun, even for the more experienced or advanced driver!'*

*(David Stevens, Bahrain International Circuit)*

*'Methods of skid recognition are the same on a frozen lake, in Sweden, as they are on a patch of diesel on a wet summer's day, in the UK!'*

*(Jim Hawkins, SKID CAR UK)*

NB: Closing Date 31<sup>st</sup> December 2008

**Förrarutveckling i Sverige AB**

Departing AM Day One and returning PM Day Four, this Torsby based course uses the only resort of its kind in Sweden. Authentic Scandinavian Log Cabins offers participants a homely taste of Swedish life.

Meals are served in the main dining area and lectures, debriefs, etc; take place in one of two unique purpose built syndicate rooms!

The essentials of this course are all knowledge based. The highly rated instructors from Förrarutveckling and the UK will arm you with the most up-to-date information available and then you can put that new knowledge to the test in the severest of conditions.

DSC/ASR/ESP/PSM..... no matter what system you have fitted to your own vehicle we will arm you with the knowledge to understand how the system works and how to use it to its maximum.

You will be amazed, that once you have a full understanding of driving in these truly adverse conditions, how the way you drive can develop and the driving exercises will provide useful analysis, of the techniques you use in your own driver-training programme.

***'NEW SYSTEMS DEMANDS NEW KNOWLEDGE'  
'Quality training gives knowledge and skills'***
